Subject: Navy responses to comments, Draft RI Rept for OU9, Portsmouth Naval Shipyard

Linda,

MEDEP has reviewed the Navy's Sept. 9, 2011 Responses to our June 17, 2011 comments on the Draft RI report for OU7. We have two comments.

1. RTC 23a. Please provide the results of the overburden calculation reevaluation.

2. RTC 25. The Navy used ProUCL 4.0.05 to conduct several statistical tests. As indicated in the last OU7 Action Item of the responses the Navy was to recalculate these tests using ProUCL 4.1. Was this done? If so, please report the results and if they significantly affect the conclusions of the RI.

MEDEP cannot concur with the document until the Navy performs these reevaluations and reports the results to the MEDEP.

Please let me know if you have any questions.

Thanks,

Iver McLeod
